

City of Albuquerque Information Technology Services Division Data Management

Albuquerque City Limits

Contact Information

Who is the contact for this dataset? The contact will be the City employee who is accountable for the data provided in this dataset and can act as front-line support in the event of any questions about the data.

Name	Michelle Gricius
Department/Division	City of Albuquerque, Planning Department, AGIS
Phone	505-924-3816
Email	agis@cabq.gov

What Does this Dataset Describe?

What is the name of this dataset? How should a user identify this dataset in any communication with contact above? Provide a shorter description of the Dataset that can act as a one-line summary of the dataset when dealing with stakeholders. Provide a longer description of the data that can be readily understood by non-technical users.

Dataset Title	City Limits
Short Description	Albuquerque city limits
Full Non-Technical Description	
Polygon file showing the city limits of Albuquerque. Projection: New Mexico State Plane Central, Feet, NAD 83	

How Should this Dataset be Cited?

How should external sources refer to this dataset in publications or documentation? Often this will simply be the URL and the date retrieved.

City of Albuquerque: <http://data.cabq.gov/government/citylimits/abqcitylimits.kmz>

Does the Dataset Reflect a Particular Time Period?

Provide any date restrictions that may affect the validity of the data. The table fields are defined as follows:

Start Date	Current
End Date	Current
Dataset Refresh Interval	Continually. Posted to web once a week.
Dataset Expiration Date	
Dataset Review Date	
Comments	

Dataset Definition/Format

Provide a field-by-field breakdown and definition of each record. This section acts as the formal data dictionary for an individual record.

Field Name	Format	Description
Name	Text	Name of City
Area	Numeric	Square feet of the area
Perimeter	Numeric	Length of City limit in feet.

Dataset Technical Description

Provide a technical description of the dataset. This should be a complete technical description aimed at developers and expert users who need to understand the scope, strengths and limitations of the dataset.

.kmz file:

This file complies with the Google Earth standard for kml files.

Dataset Assumptions

What technical and business assumptions are implied in the creation of this dataset? Examples could include the way in which a salary figure was calculated or data that was omitted for a specific reason.

Updated continually. Posted to weekly.

Who Produced the Dataset?

Which department in the City produced this dataset? Note that this might not always be the data owner. An example of this could be a dataset that ITSD produced on behalf of EHD who owned the data.

GIS Web Team
Information Systems Division
Email: gis@cabq.gov

Who Owns the Data?

Where did this data originate? Who owns the data used in this dataset? Note that this might not always be the dataset producer. An example of this could be a dataset that ITSD produced on behalf of EHD who owned the data.

City of Albuquerque, Planning Department, AGIS.

Why was the Dataset Created?

All datasets should have an explicit reason for existence and should, somehow, have value to someone. What is the perceived value that this dataset will bring?

The kmz file was created to provide the City of Albuquerque and its citizens access to accurate city boundary data.

How was the Dataset Created?

How was this dataset produced? Was it a manual process? An automated process? What were the main IT systems involved in producing this dataset?

The dataset is created using city resolutions concerning acquisitions.

What Similar or Related Data Should the User be Aware of?

Are there any other datasets available that may contain related or similar information? Might there be situations in which these other datasets might be a better alternative?

Neighborhoods
<http://data.cabq.gov/community/neighborhoods/>

Building Permits

<http://data.cabq.gov/business/buildingpermits/>

Open Space

<http://data.cabq.gov/community/openspace/>

How Reliable are the Data?

Are there any concerns about overall data reliability? Are there any data problems that the user needs to be aware of? Are there any constraints with data accuracy? What levels of confidence with this dataset could the user reasonably assume?

The dataset is highly reliable

How Well Have the Observations Been Checked?

What quality assurance steps have been performed? Sometimes, a third-party verification/audit process may also be required. If so, provide the name of the third-party who performed the verification.

Verified by the providing department

Are there Legal Restrictions on the Access or Use of the Data?

Are there any specific legal or compliance restrictions for this data? How might this affect the way in which end users might access and use this data?

None
