

[data.cabq.gov/transit/Schedule Changes](http://data.cabq.gov/transit/Schedule%20Changes)

Data Owner: Andrew de Garmo

Content: .pdf files of routes and schedules soon to be implemented. These files are generated as part of the process to update our routes and schedules. When a change has been made, the files are generated and placed here. Drivers and supervisors are consulted and the changes are accepted, or additional changes are made. Once the changes are accepted, they are scheduled to go into production. The files remain in this subdirectory until the changes take effect. On the day the route/schedule changes take effect, the .pdf files are moved from this subdirectory to [data.cabq.gov/transit/Maps](http://data.cabq.gov/transit/Maps).

If this subdirectory is empty, it means that there are no route or schedule changes soon to be implemented.
